

CONE DEBONING RETROFIT SYSTEM

Model No. HBC-110R

The Cantrell HBC-110R is an innovative and cost effective way to update your Cantrell Cone Deboning System without having to replace it. Your current system can be easily converted within hours using the original frame. This conversion provides a clean-in-place system that no longer requires a sanitation breakdown. The result is a more cost effective sanitation process as a whole, potentially extending the life of the chain.
