

▶ 14 in. Double Diaphragm Pump Model No. DDP-001

▶ The Cantrell Double Diaphragm Pump is one of a few pumps specifically designed for the poultry industry. This pump can easily handle gizzards, hearts, necks, feet and other solids. It is available in a 2", 3" or 4" configuration depending on the pumping requirement. The double diaphragm pump offers variable flow and discharge pressure and can pump up to 240 gallons per minute. There are no packing glands, close-fitting, sliding, or rotating parts to maintain. The air valve assembly is anti-stalling, non-icing and lubrication free. Constructed entirely of stainless steel and food grade polymer to offer years of reliable, economical service.
