

# GIZZARD HARVESTER

Model No. CGH-2000

The new CGH-2000 was designed with proficiency and ease in mind. This harvester provides superior performance harvesting 182 gizzards per minute with a guaranteed recovery rate of 90% and a ready-to-cook rate equal to or better than the current market machine. This exceptional output is followed by a reduced water usage rate of 20-25 gallons. Safety features include electronic and mechanical shear pins which protect the harvester from damage should any foreign matter enter the machine. Furthermore, the new see-through design provides complete access to the interior allowing easy cleaning and maintenance. Proven behind Nutech and Meyn Maestro Systems, the CGH-2000 is a must for any quality processor.

#### Highlights

- **Guaranteed 90% recovery**
- **Reduced Water Usage Rate 20-25 gallons**
- **Easy Access Design**
