

# GIZZARD HARVESTER

Model No. CGH-8000

The Cantrell Gizzard Harvester is designed to harvest 100 gizzards a minute with recovery rates in the high 90's and ready-to-cook in the 80's. Besides high recovery rates and great performance, the CGH-8000 has many built in safety features including a large number of shear pins which protect the harvester if foreign matter enters the machine. High speed, exemplary performance and safety features ensure a quality gizzard harvesting system for your processing plant.
