

▶ Head Scalder Model No. HS-1

▶ The Cantrell Head Scalder, Model HS-1 efficiently improves the cleaning of the neck and head area by reheating, therefore allowing the picking machines to pick in those hard to pick areas. The simple design of all stainless steel construction allows for easy clean-up and eliminates rust issues. The Head Scalder is easily accessible for maintenance and can be adjusted vertically and horizontally to allow easy access to problem areas. Complete with a set of temperature and regulating controls.
