

CANTRELL KNIFE SANITIZER

The Cantrell Knife Sanitizer is an effective and efficient means of sanitizing all further processing and deboning knives. The Sanitizer can be permanently mounted to the conveyor or remain unattached for mobility. Constructed of stainless steel, the unit has an adjustable 1500 watt submersible heater that maintains a consistent temperature. The unit requires only a 115V AC outlet. The Knife Sanitizer is custom built to customer specification.

Dimensions of unit shown:

Length: 10"

Width: 5"

Depth: 8"
